WELCOME

On behalf of the International Bariatric Club (IBC) and the University of Oxford we are delighted to invite you to the Third IBC Oxford University World Congress to be held from April 6 - 7, 2020 at the University of Oxford with dinner on both days in the famous Christ Church Hall, University of Oxford. The University of Oxford is the perfect setting for the congress with its rich history of academic excellence, innovation, leadership and close proximity to London.

The venue of the congress, the futuristic Sir Andrew Wiles Building of the University of Oxford Mathematical Institute is the largest conference venue in Oxford and a 15 minutes walk from Christ Church. The congress will provide a forum for the detailed analysis and interrogation of key issues in the management of obesity and diabetes from a surgical, medical, endoscopic and public health perspective.

Dinner on both days will be at Christ Church, University of Oxford. Christ Church is one of the largest colleges of the University of Oxford with notable alumni including Albert Einstein, Sir Tim Berners-Lee (Inventor of the World Wide Web), King Edward VII, 13 British Prime Ministers, the founder of the state of Pennsylvania, William Penn, the theologian John Wesley, the poet W.H. Auden and the author and mathematician Professor Charles Dodgson (pen name Lewis Carroll) who wrote 'Alice in Wonderland'. Christ Church is also one of a select few colleges chosen to be a filming location for the 'Harry Potter' films.
